

EDUCATION

- **NIHR Predoctoral Fellow, University of Manchester, United Kingdom** 10/2025 – present
18 months fellowship funded by the National Institute for Health and Care Research (NIHR), under the [NIHR Predoctoral Award](#), where I focus my research on trials' methodology, meta-science and research integrity through research collaboration and training courses.
- **Research Intern, Freie University Berlin, Germany** 09/2024 – 08/2025
12 months Internship funded by the Young African Mathematician ([YAM](#)) program, where I focused my research on the application of mathematics in health through an internship project and advanced training courses in mathematics.
- **Structured Master's, African Institute for Mathematical Sciences(AIMS), Cameroon** 2023 – 2024
Main Focus: Data Science and Statistics (GPA: 4.45/5)
- **Bachelor's Degree in mathematics(4 years), University of Douala, Cameroon** 2019 - 2023
Main focus: Analysis, Algebra and Geometry. (GPA: 3.18/5)

RESEARCH EXPERIENCE AND PROJECTS

- **Examining the Association between Risk of Bias and Trustworthiness of Randomised Clinical Trials** Ongoing
This is a methodological study that will be published as an article
The primary objective of this study is to examine the distribution of risk-of-bias and trustworthiness judgments in retracted RCTs using RoB and INSPECT-SR, and subsequently to investigate the relationship between the two tools.
- **The Effects of the Arts and Arts Therapies on Mental Health Outcomes of Children and Young People** Completed
Preprint : https://papers.ssrn.com/sol3/papers.cfm?abstract_id=6218468
A [Systematic Review and Meta-Analysis](#) of Seventy-seven trials across 25 countries focusing on mental health outcomes such as: depression, anxiety, well-being.
- **The Safety and Effectiveness of Endometrial Receptivity Tests in Assisted Reproduction** Ongoing
PROSPERO Registration: <https://www.crd.york.ac.uk/PROSPERO/view/CRD420261279397>
A [Systematic Review and Meta-Analysis](#) to determine the safety and effectiveness of using endometrial receptivity testing to guide embryo transfers during assisted reproduction in couples experiencing infertility.
- **YAM Internship Project: Enhancing COVID-19 Modelling through simulations** 2024-2025
The project focuses on using an Agent-Based Model alongside Ordinary Differential Equations to model and evaluate the effects of countermeasures, such as closing schools and wearing masks, on the spread of COVID-19 in Berlin.
- **AIMS Master Thesis: Randomised Controlled Trials in Cameroon** 2023-2024
 - Review the prevalence and quality of randomised controlled trials in Cameroon
 - Use a feasibility dataset to design and simulate a realistic cluster randomised controlled trial by mimicking pragmatic and realistic data for clinical trials
 - Analyse the simulated dataset and explore alternative methods.

WORK EXPERIENCE

- Research Assistant (University of Manchester)** 2025 - present
As an NIHR predoctoral fellow, I have the opportunity to work as a research assistant in the Department of Health Statistics at the University of Manchester. This role allows me to engage in various projects related to clinical trials, thereby deepening my knowledge in the field.
- Tutor at AIMS Cameroon** 02/2026- 03/2026
I was working as a teaching assistant for a master’s level course in the applications of Biostatistics by facilitating lectures, running tutorials, marking work and now supervising dissertation topics.
- Private Tutor in mathematics and physics** 2021-2023
Developed and delivered comprehensive tutorials on vector analysis, algebra, and geometry to high school and first-year undergraduate students

CERTIFICATES

- Industrial Immersion Program(IIP) Certificate** 2024
08 weeks online internship program to prepare young people for industrialisation using Data Science tools such as Power BI, Excel and Python.
- Introduction To Data Analysis with Ms. Excel** 2024
Learned how to visualise financial data and make predictions using Excel.

AWARDS

- NIHR Predoctoral Fellowship** 2025
Selected for the first Cohort of the 2025 [NIHR Predoctoral Award](#) program for methodologists
- Young African Mathematician(YAM)** 2024
Selected for the [YAM](#) fellowship program at the Berlin Mathematical School under the MATH+ Research Center.
- African Institute for mathematical Sciences(AIMS)** 2023
Selected for the [AIMS](#) fully funded Master scholarship program in Cameroon

SKILLS

- | | |
|---|---------------------|
| • Programming for Statistical Analysis and Modeling: | R, Python,Sage Math |
| • Visualisation, Simulation and Design: | RoB2, Geogebra |
| • Data Management: | Excel |
| • Languages: | French, English |
